InEuropa in Italy

The map shows the geographical outline of Italy, divided into its administrative regions. Several red stars are placed on the map to indicate the locations of InEuropa projects or offices. The stars are located in the northern, central, and southern parts of the country. A jagged black line surrounds the map, suggesting a focus on these specific areas.

 www.progettareineuropa.com

A group photograph of seven people, four women and three men, standing outdoors in a natural setting with trees and hills in the background. They are all smiling and appear to be a diverse group of professionals.

InEuropa TEAM

InEuropa team is composed by 7 facilitators and catalysts able to introduce strategic planning in any organization, being it public or private, fostering collaboration and avoid defragmentation in any field, with special regards to local development actions, culture and environment and social issues.

**GLOBAL
ACTION PLAN
INTERNATIONAL**

Italian Global Action Plan Antenna since 2009

GLOBAL ACTION PLAN INTERNATIONAL is an international network of organisations working together to empower and inspire people to live more sustainable lives, at home, at work and at school..

www.progettareineuropa.com

InEuropa OBJECTIVES

Objectives:

- ▶ to sensitize and inform territorial administrators on the themes of European integration, Community themes and their link to local policy;
- ▶ to favour the start of a process of innovation and overall growth within territorial bodies and the construction of European networks.;
- ▶ to find out European financial contributions to strategic activities;
- ▶ to create a project making 'culture' on the territory;
- ▶ to join and support municipalities and other territorial bodies in project-making and management
- ▶ to foster networking aimed at promoting local development actions, culture and environment and social issues

InEuropa – Other main projects

GrEAT

GrEAT
Green Education for Active Talents

Green Education for Active Talents
Erasmus+, KA2 school education

creation of a training programme for teachers to guide high school students in the identification of green jobs - sustainable jobs also in the field of tourism and culture, linked to local development and to grow sensible approaches to sustainability in students.

<http://www.greatgreenjobs.eu/>
<https://www.facebook.com/GreatprojectGreeneducationforactivetalents/>
<https://www.instagram.com/greatgreenjobs/>

EXPECTED RESULTS

- ❖ Achievement of better knowledge and more effective teaching tools related to the “green economy” sector
- ❖ Creation and reinforcement of connections between “green economy” operators and enterprises and local schools
- ❖ Greater awareness of concepts such as sustainability and environmental protection

BRAVE

BRicking Adult's future Via Empowerment
Erasmus+, KA2 adult education

aims to empower unemployed adults (aged 30-60) who have difficulties in finding a new employment because of the increasingly specialized skills required by the market. BRAVE will develop specific learning paths supporting adults to reconsider their life and expectations and to become aware of their own professional ambitions and objectives, as a way to reach their own personal fulfilment. The learning path will be focused both on personal and social skills and on entrepreneurial skills, finalized to the prototyping of participants' business models.

GAMIFY YOUR TEACHING

Increasing vocational competences of entrepreneurship Teachers with the use of gamification.
Erasmus +, KA2 VET

to support professional development of vocational competences of teachers and trainers of entrepreneurship and to enhance ICT teaching through an innovative pedagogy and approach to teaching with the use of gamification.

- to create and test of simulation game with practical elements covering 7 entrepreneurship subject areas
- to create and test methodology (didactic materials for Teachers) of teaching entrepreneurship with the use of the gamification

WATEREXPLORER

HSBC International Water Programme

An international school programme that empowers students aged 8-14 from 11 countries to take action to save our precious water. Free and fully resourced, the Water Explorer programme empowers future generations through fun, interactive water-saving Missions displayed through an online platform:

- ▶ Precious Water – How do we save those drips, leaks and flushes?
- ▶ Fresher Water – Would you drink from your local lake?
- ▶ Secret Water – Do you know how much water it takes to make a cup of tea?
- ▶ Global Water – How far would you walk for a glass of water?
